Subject: RE: DFT Uranium Site - Fact Sheet?

No, the name of the site is now Darrow/Freezeout/Triangle Uranium Mine. Dewey Burdock is another site in the UIC program.

One quick question, what should the title of the site be to fit on a fact sheet? Dewey Burdock Abandoned Uranium Mine?

How about I update the comm. strat if you wouldn't mind putting together the fact sheet? Tell me if that works for you!

Thanks,

We don't have a fact sheet for this site..attached is a fact sheet template we used for utah metals that could be useful.

Let me know if you want help drafting a fact sheet. I would typically include the information included in the the comm. strat for a particular site for use in a fact sheet.

Attached is the most recent comm. strat I have for the site. Please let me know if that also needs to be updated. Thanks.

Hi Christopher,

Do you have a fact sheet for the Dewey Burdock or Darrow/Freezeout/Triangle Uranium Mine site already? Formerly known as Abandoned Open Pit Uranium Mine? If not, could you sent me a template? Victor would like us to put one together to inform future briefings with management.

Thanks,
